

The Asbestos Removal Contractors Association Health and Safety Policy

General Statement

The Asbestos Removal Contractors Association (ARCA) is committed to ensuring the health, safety and welfare of its employees, so far as is reasonably practicable. We also fully accept our responsibility for others who may be affected by our activities, such as contractors, visitors and members of the public. We will take steps to ensure that our statutory duties are met at all times.

Each employee will be given such information, instruction and training as is necessary to ensure that they can carry out their work tasks safely.

It is the duty of management to ensure that all processes and systems of work are designed to take account of health and safety and are properly supervised at all times.

Adequate facilities and arrangements will be maintained to enable employees and their representatives to raise issues of health and safety.

Competent people will be appointed to assist us in meeting our statutory duties including, where appropriate, specialists from outside the organisation.

Every employee must co-operate with us to enable all statutory duties to be complied with. The successful implementation of this policy requires total commitment from all levels of employee, throughout the organisation. Everyone has a legal obligation to take reasonable care for their own health and safety, and for the safety of other people who may be affected by their acts or omissions. Full details of the organisation and arrangements for health and safety will be set out in separate documents.

This policy will be regularly monitored to ensure that the objectives are achieved. It will be reviewed and, if necessary, revised in the light of any legislative or organisational changes.

Signed:

Steve Sadley
Chief Executive Officer
